

SEMM WORKSHOP

The Proteomics Revolution

Advancing Science and Society

June 29th - July 1st 2026

Quark Hotel, Milan

Proteomics is revolutionizing our understanding of life and disease.

This workshop will showcase the multifaceted applications of proteomics, illustrating the latest breakthroughs in deciphering the intricate world of proteins and their crucial roles across diverse biological systems.

Speakers

Angela Bachi IFOM Institute of Molecular Oncology, IT
Petra Beli Institute of Molecular Biology, DE
Isabel Teresa Cabruja Thermo Fisher Scientific, IT
Annamaria Cattaneo University of Milan, IT
Fabio Conforti Humanitas University, IT
Fabian Coscia Max Delbrück Center, DE
Benjamin Garcia Washington University School of Medicine, US
Tami Geiger Weizmann Institute of Science, IL
Anne-Claude Gingras Lunenfeld-Tanenbaum Research Institute, CA
Albert Heck Utrecht University, NL
Marco Hein Max Perutz Labs, AT
Andrea Isidori Sapienza University of Rome, IT
Kathryn Lilley University of Cambridge, UK
Matthias Mann Max Planck Institute, DE
Michela Matteoli Humanitas University, IT
Mara Monetti Memorial Sloan Kettering Cancer Center, US
Javier Muñoz CNIO, ES
Maria Rescigno Humanitas University, IT
Charo Maria Robles Ludwig Maximilians Universität, DE
Richard Scheltema University of Liverpool, UK
Lisa Schweizer OmicVision Biosciences, DK
Chiara Segre Fondazione Umberto Veronesi, IT
Kelly Stecker Utrecht University, NL
Jennifer Van Eyk Cedars-Sinai Medical Center, US
Olga Vitek Khoury College of Computer Sciences, US

Organizing Committee

Tiziana Bonaldi University of Milan, IT
Marie Chion University of Cambridge, UK
Chiara Francavilla Technical University of Denmark, DK
Albert Heck Utrecht University, NL
Leander van der Hoeven University of Copenhagen, DK
Valentina Siino Acrivon Therapeutics, SE
Sara Zanivan MD Anderson Cancer Center, US

Sessions

PROTEOMICS IN HEALTH AND DISEASES:
from Biomarkers to Mechanisms and
Therapies

SPATIAL PROTEOMICS: Unlocking Spatial
Information of Proteomes and their
Dynamics in Cells and Tissues

DECODING CELLULAR SIGNALING: Insights
from Proteomics

THE PROTEOMICS REVOLUTION:
Technological Innovation & Computational
Advancements

Registration deadline 30/03/2026

Abstract submission deadline 28/02/2026
